	APPROVAL OF STATE ENGINEER
follo	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the wing limitations and conditions:
th pe so in de me ta wa us ho	This permit is issued subject to all existing rights on the source. It is derstood that the amount of water herein granted is only a temporary allowance and at the final water right obtained under this permit will be dependent upon the riod of use and the average number of livestock served from the waters of this urce. It is further understood that this right must allow for a reasonable lower-go of the static water level at permittee's well due to any other ground water velopment in the area. The well shall be equipped with a 2-inch opening for assuring depth to water. If well is flowing, a valve must be installed and mainined to prevent waste. The State retains the right to regulate the use of the ter herein granted at any and all times but does not take responsibility for the e of the Federal range. This Permit does not extend the permittee the right of ingress and egress on bolic, private or corporate lands. The issuance of this permit does not waive the requirements that the permit lder obtain other permits from state, federal, and local agencies. amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and of exceed. 0.0062 cubic feet per second, or sufficient water to
	ter 200 head of cattle.
	al construction work shall begin on or before
Proc	f of commencement of work shall be filed before
Wor	k must be prosecuted with reasonable diligence and be completed on or before. April 8, 1983
	f of completion of work shall be filed before
